

AMATEUR RADIO INFORMATION

This information page is directed to Amateur Radio Operators and provides extra links related to emergency communications.

CECA – Coast Emergency Communications Association

www.va7eca.ca

This Nanaimo based organization is set up to provide emergency communications for the Vancouver Island region during a disaster.

NTS – National Traffic System

This system is used to send messages not just in emergency situations but also in daily message handling.

Information on traffic handling and other Amateur Radio topics can be found in the following website.

www.ve7gn.ca

RAC – Radio Amateurs Canada

This is the official Canadian organization for Amateur Radio Operators.

www.rac.ca

ARRL – Amateur Radio Relay League

This U.S.A. based organization is recognized and works with RAC in all Amateur Radio matters in North America.
